

Capabilities Statement. Landscape Architecture, Planning, and Urban Design.

IT'S WHAT WE DO.

Firm Overview

Klavon Design Associates, Inc. (Klavon) is proud of our long-standing reputation of providing award-winning planning and design services for federal, state, and local agencies. With over 27 years of experience, we are landscape architects, planners, and specialists. As a small business our size and structure allow us to provide flexible, more responsive service. Klavon consistently delivers excellence by adhering to our core values and reputation of competency and integrity. Expect innovative solutions that fulfill the requirements of the most comprehensive projects, delivered on time and on budget. Our diverse and exceptional design and technical capabilities are what define us.

Klavon was founded in 1996 by Dina Cole Klavon. Ms. Klavon is a registered landscape architect and has been leading projects for over 41 years. Klavon is a certified women-owned disadvantaged business enterprise (WBE) and a **women-owned small business (WOSB)** with specialized experience as a prime contractor. Klavon's technical competence extends past the professional degrees, registrations, and certifications of our team to include other certifications such as Leadership in Energy and Environmental Design (LEED) and National Charrette Institute (NCI).

Landscape Architecture

What makes us unique isn't just how well we design. It's how well we listen. Our landscape architecture work is brought to life with your input to complement the existing natural and cultural characteristics of the space, and to fit seamlessly within the environment. From the start of projects both big and small, we focus on how people will interact with the space, marrying our technical expertise and aesthetic ingenuity.

Planning

With an eye toward future growth, our plans deliver a clear, unified vision that considers all implications and contingencies. The result is a practical study with actionable recommendations. We are also familiar with the most current development trends, technologies, and considerations to ensure our plans are relevant and lasting.

Urban Design

Klavon has years of experience helping cities, institutions, and communities reach their full potential by tailoring our designs to how people live, work, and play. By focusing our international expertise and skills at the local level, we can balance creative sensibilities with budgeting and scheduling realities.
